Could you please have it transferred back to me ASAP since we need to get an action out. Please let me know.

I got your email message yesterday (Friday and Monday were telework days for me, and they don't give us the Mail@home program to check it.). I checked with my SPE, and he says the nominal recitation of an x-ray system in claim 9 is not enough for proper classification in class 378 according to the class definition. I do have the case.

David Bruce

Hello Sir. This case is docketed to me, but it has you listed for where the case is currently being charged. Being that this case is for framing nodes on image systems, and since you have issued similar subject matter, would you be willing to accept this case via transfer from my class of 700 (generic control systems)? I need to have this case moved this bi-week since it is on my "zero inventory date cases" and since you already have the case and have already worked on related applications, I figured it would be easier to transfer it to you. Please let me know what you think... thanks,

Ronald D Hartman Jr.
